Everyone says they know who i am  
everyone thinks they have me all figured out  
But they only see me when im not afraid  
they only see who i wanna be

we all run and hide every once and a while  
we all let go and run never letting it show

Everyone says they know who i am  
everyone thinks they have me all figured out  
But they only see me when im not afraid  
they only see who i wanna be

They think they found their homecoming queen  
But baby  
Ohh  
But baby im just me

we all run and hide every once and a while  
and we all let go and run never letting it show

So look at me right now  
Take a good look  
cus im not scared to frown  
No oh  
this is who i am  
ill never change a thing not for you  
im just me .
