"Got Dynamite"

Visit "[Got Dynamite](#)" on MotoLyrics.com

I can't take your hand and
Lead you to the water
I can't make you feel
What you don't feel, but you know you wanna
Find out how to crack me
Log in, try to hack me

Underneath the surface
There's so much you need to know
And you might feel like you're drowning
But that's what I need to let go

Tell me what you've got to break down the walls
You just might need dynamite, yeah
Tell me what you've got to break down the walls
Kick senseless, my defenses

Tell me what you're gonna do
I need you to light the fuse
Tell me what you've got to break down the walls
You just might need dynamite

Got dynamite

I can't paint this picture
Just so you can hang it
I can't wait for you to understand,
If you just don't get it

Find out how to crack me
Log in, try to hack me

Underneath the surface
There's so much you need to know
And you might feel like you're drowning
But that's what I need to let go

Tell me what you've got to break down the walls
You just might need dynamite, yeah
Tell me what you've got to break down the walls
Kick senseless, my defenses

Tell me what you're gonna do
I need you to light the fuse
Tell me what you've got to break down the walls
You just might need dynamite

When the walls come crashing down
I hope you're standing right in front of me
When the past lies all around
Cause all you need to see is me, is to intervene
And make the walls come crashing down!

Got, got dynamite!

Tell me what you've got to break down the walls
You just might need dynamite, yeah
Tell me what you've got to break down the walls
Kick senseless, my defenses

Tell me what you're gonna do
I need you to light the fuse
Tell me what you've got to break down the walls
You just might need dynamite

Got dynamite
Got dynamite
Got dynamite
Got dynamite
