You said you would take care of me,  
We would always be living good and  
You said you would get big one day but you wouldn't get Hollywood  
Then opportunity called your name and  
You said that you didn't feel the same way I felt for you.

Hey You said we'd grow old, and we'd start us a family  
And, you said we'd be in love, we'd live ever after happily  
And, got a call from fortune and fame  
They said that they wanna change your name  
But I care for you

Cause I still hear your voice  
Said I still hear your voice  
Now think about the lie that you fell in  
Now it feels like you're about to give in  
Cause I still hear your voice, on my radio  
On my radio
