I can make the rain stop, if I wanna  
Just by my attitude  
I can take my laptop, record a snapshot  
And change your point of view

I just entered this brand new world  
And I'm so open hearted  
I know I've got a long way to go  
but I'm, I'm just getting started

I'm over my head and  
I know it, I know it  
I'm doin' my best  
Not to show it, to show it

Whatever it takes to be  
What I was meant to be  
I'm gonna try  
'Cause I'm Living the dream  
And I know it, I know it

I'm trying my best  
Not to blow it, to blow it  
And I know everything will be fine  
With me, myself, and time

And time... (7x)

I go where life takes me  
but some days it makes me  
Want to change my direction  
Sometimes it gets lonely but I know  
that it's only a matter of my perception

I just entered this brand new world  
And I'm so open hearted  
I know I've got a long way to go  
but I'm, I'm just getting started

I'm over my head and  
I know it, I know it  
I'm doin' my best

Not to show it, to show it

Whatever it takes to be  
What I was meant to be

I'm gonna try  
'Cause I'm Living the dream  
And I know it, I know it

I'm trying my best  
Not to blow it, to blow it  
And I know everything will be fine  
With me, myself, and time

And baby there's nothing like this moment  
So just be real and let the truth be spoken  
Whatever's broke I can make it unbroken  
Turn the lead in my hand in to something golden

Just try, more love  
If I just try, more love  
Then I'll find myself in time

I'm over my head and  
I know it, I know it  
I'm doin' my best  
Not to show it, to show it

Whatever it takes to be  
What I was meant to be  
I'm gonna try

I'm over my head and  
I know it, I know it  
I'm doin' my best  
Not to show it, to show it

Whatever it takes to be  
What I was meant to be  
I'm gonna try  
'Cause I'm Living the dream  
And I know it, I know it

I'm trying my best  
Not to blow it, to blow it  
And I know everything will be fine  
With me, myself, and time

(I'll find myself in time  
I know I'll find myself in time)
