I'm gonna rock this place like outta space

Give you something that you never had

I'm gonna paint my nails

And style my hair

And save me a strawberry bubble bath

I'm gonna sweep my mind

And the time I'll find

That I got summet to say

I'm gonna jump around

And paint this town

Let me hear you say

HEY

Take me, take me down, take me down

Ride

Now follow, follow me now, follow me now

Ride

Turn it up
