Didn't know what to get you
Ordinary just wouldn't do
But I just found the perfect gift for you

I hear church bells a ringing
Careless singing harmony with me now
You are looking so lovely
Oohh Even if the lights go out

We've got mistletoe and fire light
On this cold December night
The snow outside will said the moon
As I sing my song

We've got mistletoe and fire light
On this cold December night
The snow outside will said the moon
As I sing my song for you
Sing my song
Sing my song for you
