Take care of yourself darling
I guess, I guess this is goodbye
Tomorrow's coming quicker
Than yesterday came today

I guess this is goodnight
Cause' we've all
Got one last night together
So let's start the party
You know we rocked
Promise you
Won't forget about me

So these moments spent
Are coming to an end
I'm counting seconds
Till' next time again
Listen

One, two, three
Four, five
Six, seven
Eight, nine
We couldn't change it
If we tried
One, two, three
Goodbye

We all said before
Our time is here
But it never meant a thing
Until we all began to tear
And I'll be aching before

And after we depart
From remembrances from the very start
The grand memories together,
the grand memories together
Now here I am, it's your song
I'll be singing
Your the voice I hear

Inside my head

These moments spent
Are coming to an end
I'm counting seconds
Until next time again
Listen

One, two, three
Four, five
Six, seven
Eight, nine
We couldn't change it
If we tried
One, two, three, four
Goodbye

We've raised our voices
We've followed our dreams
One thing who I will be to us
I will never be too cool
For Camp Rock 3

These moments spent
are coming to an end
I'm counting seconds
Until next time again
Listen

One, two, three
Four, five
Six, seven
Eight, nine
We couldn't change it
If we tried
One, two, three, four
Goodbye
