Trample onto the voyage, travel as forest fire.
Through the wreckage down the spine - facing your
utmost obscene.
Inner earthquake running amok as the seasons drip
through the skin.
Cold you are - one foot in the coals - the sight demands
your sight.
First Impression's paralyzing the sight of one's own
soul.
Poisoning depressing mouth with epidemic smile.
The past is present - death ballad setting abortion like
tones.
Scabs of your impurities presented for your review.
A nightmare colored vulture falls - It Falls!! - it wraps
you in it's sleep.
Prosthetic words are spit listen - Listen!! - you are your
own worst enemy.
Castrated callous ideas - mercy like no other is the
medicine - medicate!!
Your very own civil war right before your eyes -
possessed by your own revenge.
Wearing the badge of the asshole.
Misery is unrestrained nausea exploding - carrion
peeling back
Brain is turning inside out.
Pissing Blood - wreaking shit.
So on with the disaster.
