your heart's gone blind again
misery becomes your friend
once again, there's no way out
it feels like you reached the end

shed a lonely tear
you know we're still out here
so let me near, somehow we'll work it out
i'll be your partner in fear

i'll help you chase the thought away
i'll help you find a better way
your sorrow isn't here to stay
tomorrow is another day

if you close your eyes
forever escape the lines
will you realize for the one last time
we could have fought those lies

what if there is no heaven
is there still a reason
to leave behind, to leave us all
and fade into the unknown

i'll help you chase the thought away
i'll help you find a better way
your sorrow isn't here to stay
tomorrow is another day

i'll help you chase the thought away
i'll help you find a better way
help you pass through the night into the day
stay with me don't fade away
your sorrow isn't here to stay
tomorrow is another day

(don't fade away)
