White knuckles wrap the trigger
Your eyes like wide open caskets
One mission engage revenge
Emaciate regardless
Casting ruination
Tear it down and reinvent
Acting on inbred ideas
Turn your back on the fuckin world
Traitor!!
Metastasizing third world
Infectious cleansing of the earth
You use a man once then destroy
Cashed in
Fucked up
Cheat the leader
What the fuck have you done?
My title makes me a traitor
My pleasure to cheat the leader
My whole hearted fuck you
Traitor!!
