When I was only a boy  
And the world was so new  
Then I long to see it all  
To explore every place  
To get on with the race of my life  
Then it all seem to change  
There was no time for games  
Only fighting to succeed  
And the cities were great  
When the sudden I saw the time  
As the leaders arranged  
Pity wars without change  
There is no time left to dream  
So I am packing my bags as I hear the highways call  
Take me with you gypsy lady  
When you leave the lonely people behind  
Take me with you gypsy lady  
Through the melodies we fly  
Sing me stories I can dream to  
There will never be a memory of pain  
This is the life for me free as a child again  
Take me with you gypsy lady  
When you leave the lonely world behind  
Tell me of the secret places  
Will forever you will seem to fill my heart again  
After learning the score  
Building up to report  
Always doing it with style  
It doesn't make any sense  
Living out of pretends for the show  
It's an alien place  
Seems that every face never has a chance to smile  
So I am off in the road as I hear the highways call  
Take me with you gypsy lady  
When you leave the lonely people behind  
Take me with you gypsy lady  
Through the melodies will fly  
Sing me stories I can dream to  
There will never be a memory of pain  
This is the life for me free as a child again  
Take me with you gypsy lady

When you leave the lonely people behind  
Take me with you gypsy lady  
Through the melodies will fly  
Sing me stories I can dream to  
There will never be a memory of pain  
This is the life for me free as a child again  
Take me with you gypsy lady  
When you leave the lonely people behind
