I've long awaited for the day
That comes to set me free

And all I ask
As I'm a fool
Is love for You and me

For now and each and every day
The moon, it changes [us] all

All the misery lies
Set to blind Your eyes
All in all
For from seeing You

All I need is a simple truth
Cause I believe in You

A story telling silent [order] make believe us true
Cause I will know
A time to climb above my lonely soul

I reach out with my heart
To the moment divine
And feel my love grow Freedom divine
Freedom divine
Freedom divine
Freedom divine
Freedom divine

All I need is a simple truth
Cause I believe in You

A story telling silent [order] make believe us true
Cause I will know
A time to climb above my lonely soul

I reach out with my heart (Freedom divine)
To the lonely divine (Freedom divine)
And feel my love grow

Freedom divine
Freedom divine
Freedom divine
