Gather all of your thoughts of god  
Give yourself a reason for a shot  
At riding the nerves of the washed  
Life (or) faith decide  
Another violence -- slave to comfort  
Dragging through your head until exhaust  
Condition that is easily lost  
Grinding Pointless Endless  
Punish Sufferless  
Fuck a martyr Take the time  
To know your Enemy  
The threat is synthetic  
Worldwide chemical imbalance  
When someone else's god makes you a target
