In me a silence as in your words Glide like some crazy fall of nightbirds I'm full of sky and music too

Wanna make a song for you I wanna make a song for you I wanna make a song for you

Just can believe [a touch is so light] Laughing like in a circus all the time Like [their go gesture] born anew

Wanna make a song for you I wanna make a song for you

[interlude] Drunk on the passing by of each day Wanting to sing your fragrance, your grace There's really good music floating on my song I wanna make a song for you I wanna make a song for you I just wanna make a song for you

In me a silence as in your words Glide like some crazy fall of nightbirds I'm full of sky and music too I wanna make a song for you I just wanna make a song for you
