Nothing left to fight Nothing left to kill One thing left to  
fuck  
Bitter till I die there's a slaughter that's leaning on time  
The spiders in my throat A hole is in my sky  
I'm dying to fuck off -- You're pissing in my skull  
The last thing that I want is the first thing I need  
Septic presence all around me And now you're all a  
fuckin' target  
Vomiting the damaged past Revenge use once and  
destroy  
A fuckin' disease Voice of unreason lives in me  
Crushing the pillars of their lungs Life won't wait  
Burning the flesh Smashing the face Fucking it all
