I will never leave you,
I will not deceive you,
I will always be your friend.
I will never leave you,
I will not deceive you,
Ill love to the very end.
Ill be your friend and I will never let you down,
Whatever happens I will always be around,
When you're in troubles I will be right friend for you,
I will help you whatever you do.
We were lovers long ago,
I still care for you, I want you to know.
Ill be your friend and I will never let you down,
Whatever happens I will always be around
And when you need someone I wont be far away,
Friends forever, not only today.
You found someone else and I had to go,
But I'll stay old friend, darling don't you know.
Ill be your friend and I will never let you down,
Whatever happens I will always be around
And when you need someone I wont be far away,
Friends forever, not only today.
I will never leave you,
I will not deceive you,
I will always be your friend.
I will never leave you,
I will not deceive you,
Ill love to the very end.
