I'm not a genius I'm more like a genie
Granting girls wishes from a stone cold bikini yeah
Sewing up ideas like delicious kisses
I'll play with you mid but I won't do your dishes boy
Say it again

CHORUS:

V.G.I. my philosophy
V.G.I. is I'm a masterpiece
V.G.I. I wear a scrunchie
V.G.I. I'll say it again

I say I say a intellectual genie
I'm making bullshit disappear like a hou-fuckin-dini
Turntables around with my smile bright and gleaming
You think I'll take your order boy
You must be fucking dreamin

CHORUS

Cuz I'm extra special and I'm burning bright
I'm a UFO blazing through your starry night
You try to shoot my down girl cuz you just don't
understand
That a woman like me can be master of my plan

CHORUS

I don't wanna say I want to
I don't wanna say I don't
Sometimes the secret is
Sometimes the secret is
yes yes yes yes

CHORUS
