"Crossfire"

Caught us standing in the crossfire
Caught us standing in the crossfire
Don't make a move
The tension is rising
It's a suicide trip
No time for heroes
The runaway's a frightening sight
Staring through bloodshot eyes
Caught us standing in the crossfire
Caught us standing in the crossfire
We'd have been there by now
Breathing the free air
I'd waited so long
To walk in the sunshine
It's all someone else's fight
Who the hell's got the God given right?
Caught us standing in the crossfire
Held a gun against my head
Demanded some strange destination
Some poor souls been left for dead
So while you think of me
Remember this
If freedom's worth fighting for
Don't give in
Caught us standing in the crossfire
Held a gun against my head
Demanded some strange destination
Some poor souls been left for dead
