Like a river you keep flowing through me  
Feel like I'm drowning  
Drowning in your love  
Just how long can I survive  
With this weight so deep inside

I'm a fool to play it the hard way  
I'm a fool to play it the hard way  
I'm a fool to play it the hard way

Like a gambler on a losing streak  
Played my cards, but you're misdealing me  
Guess I should have realised  
As I looked in your eyes

I'm a fool to play it the hard way  
I'm a fool to play it the hard way  
I'm a fool to play it the hard way  
I'm a fool to play it the hard way  
I'm a fool to play it the hard way

Need your lovin'  
I can't let go  
I'm a fighter guess  
You always knew  
I'll take all you can give and more  
But you're sure worth living for

I'm a fool to play it the hard way  
I'm a fool to play it the hard way  
I'm a fool to play it the hard way  
I'm a fool to play it the hard way  
I'm a fool to play it the hard way
