Red bag in the tide
Unknown origin
Deadly contents
A floating pile of pestilence
No one suspects
The impending plague
Imposing multitudes
Lethal strain
Swept in by tide
Epidemic coincides
Bulging contagious
Infectious hospital waste
Blood via tidal wave
Lab rats culminate
Bacteria
A festering reservoir
Putrid menstrum
Gushing sea of pain
Corrosive genesis
Serum death
Cultures decompose
Healing implements erode
Coastline reaping
Infectious hospital waste
Low tide, revealing a display so vile
Preys upon the unsuspecting
AIDS, link vials of unknown serum beached
By deliberate acts of dumping
Virus, absorbed by a school of fish
Wields a cuisine of demise
Caustic, wide spread harmful influence
Of microscopic agents
[Lead Sykes]
E.P.A. denies
Raging venomous decline
Of the ocean's infestation
Certain death compels
Irritating toxic smells
Beaches wreaking sick intent
Greed, constitutes lies
Pay off complete
Now it's too late

Barge, eludes a mandate
Clinical waste
Caustic shoreline
Scum, cripples a beach
Carcinogens
Toxic release
Germ tainted torrent
Hydraulic death
Containment
[Lead Reilly]
3. 0.44 calibre brain surgery

Incarcerated by my fear, paranoia
I'm condemned to live a wretched life
Confinement in a sterile world isolation
Disconjunction with society
Boiling my food to exhume the parasites
Diet infectious
Water flowing through, filters for distilling
Organisms infesting
Oxygen tanks, a breathing apparatus
Perpetuates vitality
Beleaguered by repulsion of defilement
Functional disorder of the mind
Obsessive aberration of absolute purity
Neurotic compulsion
Accursed affliction
Gnawing lamentation
Deteriorating intellect
Distortion of perception
Self proclaimed diagnosis
Drastic resolution
Self prescribe a red hot slug
White knuckle pistol grip
Load the chamber, hammer cocked
Jam the barrel in my mouth
Need a reprieve from my misery
Unrelenting anxiety
All ask is one final plea
.44 caliber brain surgery... surgery
[Leads Sykes, Reilly]
Purgatorial euphorium
Banish my affliction
Lead forged entry wound, exempting me from
Melancholic psychosis
Cybernetic annihilation
Finally set me free
Released from my coma, denied death's crushing jaws
Prolonged tortured existence
Informed by physicians, an amateur lobotomy
Deprived of an autopsy

Psychotic abortion
Grey matter negated
Premeditated remedy
Procedure of extremity
Thought I had a master plan
.44 in my hand
Assassination was my goal
Polluted filthy world a loathe
Suicide with no success
Abolished my obsessiveness
Propelled the cure emphatically
Change convictions radically
Practising without a degree
.44 caliber brain surgery
