Progressive evolution  
Spawns a hybrid breed  
Through natural selection  
Neanderthal conceived  
Barreled chest and heavy limbed  
Bony ridge atop his skull  
Beetled brow, immensely strong  
Bi-pedal locomotion  
Ape man, short statured  
Slouching dim wit brute  
Homo erectus  
Modern sub-species  
Packing spears and heavy clubs  
Stalking giant prey  
Neanderthal attack  
A migratory herd  
Mammoth charges with malice  
Tries to feast upon his death  
Armed with a broken ranpike  
Impale it's massive chest  
Butcher with stone tools  
Carcass of their prey  
Savage intention  
Carnivorous feast commence  
[Lead Reilly]  
Intruding hostile cave bear  
Slay the vicious beast  
Snare a woolly rhino in a  
Camouflaged abyss  
Massive haul of bones in tow  
Retreating to his dank abode  
Embossing his icy lair  
With a skull and bone complex  
Slaughter for pleasure  
Instinctively possessed  
Killing the symbol  
Of his dominance  
Skulls of fallen enemies  
Crushed by scathing blows  
Mastication of their flesh  
Burn the bones for fuel  
Human bone, cut, smashed and charred

Neanderthal has left his mark  
Severed heads, disjointed limbs  
Cannibalic butchery  
Emerge, cro magnon  
A higher form of life  
Violent, fierce battle  
Neanderthal's demise
