Fever's in the city  
Fever's in the city  
The wind she cries  
A bell is ringing  
Stood outside  
I could hear the sound  
Keep away  
Before we know  
Before we will know  
Fever's in the city  
The fever's in the city  
People dying in the city  
A lonely sign

Red welcome  
Somewhere our side  
For just someone  
How do we  
Heaven forgive them  
For they finally blew the wall  
It's a visitation to us all  
Fever's in the city  
The fever's in the city  
People dying in the city
