I can't come down
It's gone too far
Oh, I can't come down
It makes no sense
Just wasted words
Oh, I can't come down
I've tried to come to terms with it all
Has it really gone this far
Love suspended frozen in a jar
I never did belong
They're staring back at me from inside the cage
I'm staring back at me
The ape's coming of age
I can't come down
It's gone too far
Oh, I can't come down
It makes no sense

Just wasted words
Oh, I can't come down
Why offer stimulation to a lost cause
You drive the nails in, I can't take anymore
I'm the last one survivor I took you all
I'm the rare breed the cast off
Come on break the mould
I can't come down
It's gone too far
Oh, I can't come down
It makes no sense
Just wasted words
Oh, I can't come down
