Begin the madness  
Tear down the sign  
Ideals and values  
They use to keep us in line

Turn a blind eye to jobless millions  
Queues of wreckage to be broken down  
Leaders feed us their solutions  
Mistakes the death cart clears away

Beware of the...  
The plague  
The plague  
The plague  
The plague

A pig for power  
Misplacing trust  
Science moves fact to fiction  
Disturbing dust

All this in the name of progress  
While our existence is sold downstream  
Religion plays upon the ruin  
While Manson throws away the key

Beware of the...  
The plague  
The plague  
The plague

The plague

Don't look at me  
I'm not the answer  
Look to you  
It's where it's at

Don't look at me  
I'm not the saviour  
It's up to you  
To face yourself

What price the future  
And Orwell's dream  
All yours big brother  
On twenty two inch screen

The tragedy we bleed human  
Can't feed emotion to the zombie brain  
And as the rat becomes exhausted  
We stand to lose the game

Beware of the...  
The plague  
The plague  
The plague  
The plague
