We are preachers of thy Eternal Kingdom

We are disciples of thy Blackend Requiem

Thru the blessing of eternal night

We shall rejoin

And spread the call of thy kingdom

Thru the sacrifice of blood

We shall reclaim

The rights and wisdom beneath and above

Thru the sign of the beast

We shall declare

A war and new era

Thru the meaning darkness

We shall rise

Rise... in the name of Lucifer

Cause we are the brotherhood of death

And we were baptised in darkness...

The Order of the Black Flame...

The Order of the Black Flame...

The Order of the Black Flame...
