Don't come on quietly when you draw near
Don't go on lightly, don't leave me here
I wither quickly in winter's cold
But carry onward like I was told
(I wait for a sign)

Like blood in the tears of all my enemies
(So they will see)
Knowing the pain the way they should
Blood in the tears of all my enemies
(Given to me)
Leaving a trail to where you stood

And when it's quiet, when you can hear
I bet you to take me away from here
(I wait for a sign)

Like blood in the tears of all my enemies
(So they will see)
Knowing the pain the way they should
Blood in the tears of all my enemies
(Given to me)
Leaving a trail to where you stood

Cleansing red
Wake the dead

Like blood in the tears of all my enemies
Knowing the pain the way they should
Blood in the tears of all my enemies
(Given to me)
Leaving a trail to where you stood

Like blood in the tears of all my enemies
(So they will see)
Knowing the pain the way they should
Blood in the tears of all my enemies
(Given to me)
Leaving a trail to where you stood
