Don't leave us  
They said that you had gone astray  
Don't lead us  
Away from the light

We stood behind the veil  
And watched you walk away from us  
You shattered all our dreams  
In one fatal mistake

You fractured every piece of life  
That we cared about, remember how  
You breathed in us new life and then you took it away  
You'll never live that down

I gave you every guiding word  
To cut it off, cut it off, cut it off, cut it off  
Now you hand me back the blade  
To make that first incision for you

Wait and see  
The weight of life may be the end of me  
The tension, break me

Wait and see  
The weight of life may be the end of me  
The tension, break me

We held you up on high  
So why did you abandon us?  
We never thought you'd be the one  
To fall so far

You fractured every piece of life  
That we cared about, remember how  
You breathed in us new life and then you took it away?  
You'll never live that down

I gave you every guiding word  
To cut it off, cut it off, cut it off, cut it off  
Now you hand me back the blade  
To make that first incision for you, for you

Wait and see  
The weight of life may be the end of me  
The tension, break me

Wait and see  
The weight of life may be the end of me  
The tension, break me

Wait and see  
The weight of life may be the end of me  
The tension, break me

Wait and see  
The weight of life may be the end of me  
The tension, break me

Wait and see  
The weight of life may be the end of me  
The tension, break me

Wait and see  
The weight of life may be the end of me  
The tension, break me
