I still wonder when the medicine will take it's effect.
And the injection they made, it's all just left me the
same.
It's hard to concentrate with echos of your voice in my
head.
From all you said, im still paralyzed.

But I'm almost out of breath from saying things that I'll
regret, that I'll regret.
My time is over
I can't do this alone.
But I'm almost out of breath from saying things that I'll
regret, that I'll regret.
My time is over
I can't do this alone.

I'm infected with you, pull the plug already.
Tell me before I go that you're infected with me.
I'm infected with you, pull the plug already.
Tell me before I go that you're infected with me.

I can't remember if I ever took a minute to say
That if it had to be now, I'm glad it had to be me.
I can't recuperate, I'm never going to leave here alive.
Just help me through this
Don't let me die here.

But I'm almost out of breath from saying things that I'll
regret, that I'll regret.
My time is over
I can't do this alone.
But I'm almost out of breath from saying things that I'll
regret, that I'll regret.
My time is over
I can't do this alone.

I'm infected with you, pull the plug already.
Tell me before I go that you're infected with me.
I'm infected with you, pull the plug already.
Tell me before I go that you're infected with me.

I'm killing time just trying to find the words that fall so

short of you.
I'm losing sleep, I can't compete, I'm giving up
I can't do this alone. (4x)
NO!
