Oh, oh, oh, oh, oh [x3]

There were so many things  
That I never ever got to say  
'Cause I'm always tongue tied  
With my words getting in the way

If you could read my mind  
Then all your doubts would be left behind  
And every little thing  
Would be falling into place

I would scream to the world  
They would see, you're my girl  
But I just...

Keep gettin' stuck, stuck  
But I'm never givin' up, up  
In the middle of a  
Perfect day  
I'm tripping over  
Words to say  
'Cause I don't want to keep you guessing  
But I always end up gettin' stuck, stuck  
But I'm never giving up, up

Oh, oh, oh, oh, oh [x3]

It's the way that I feel  
When you doin what you do to me  
Keeps you running through my mind  
24/7 days a week

And if you've got the time  
Just stick around and you'll realize  
That it's worth ever minute it takes  
Just wait and see

I would scream to the world  
They would see, you're my girl  
But I just...

Keep gettin' stuck, stuck  
But I'm never givin' up, up  
In the middle of a  
Perfect day  
I'm tripping over  
Words to say  
'Cause I don't want to keep you guessing  
But I always end up gettin' stuck, stuck  
But I'm never giving up, up

I'm over the chances  
Wasted  
Tell me it's not to late, it's  
Only the nervous times  
That keep me bottled up inside

Oh, oh, oh, oh, oh  
Oh, oh, oh, oh, oh

Keep gettin' stuck, stuck  
But I'm never givin' up, up  
In the middle of a  
Perfect day  
I'm tripping over  
Words to say  
'Cause I don't want to keep you guessing  
But I always end up gettin' stuck, stuck  
But I'm never giving up, up

Yeah, yeah  
Oh, oh, ohh, oh, oh [x3]

'Cause I don't want to keep you guessing  
But I always end up gettin' stuck, stuck  
But I'm never giving up, up
