"This Is Our Someday"

Visit "[This Is Our Someday](#)" on MotoLyrics.com

And everyday feels like the other
And everywhere looks just the same
When every dream seems like forever
And your a face without a name

Maybe now is our best chance
To finally get it right
Just look at the world as an apple
And it's time to take a bite

Someday it will come together
Someday we will work it out
I know we can turn it up all the way
(Cuz this is our someday)
Someday is what we make it
Someday is right here and now
What way what way what way
Cuz this is our someday

Oh oh oh oh oh (2x)

We all have times, times we wonder
Will the spotlight shine on me
Don't let the waves go and pull us under
I missed the opportunity
Don't look down or look back
It's not that far to go
Cuz if we never trap it
We will never really know

Someday it will come together
Someday we will work it out
I know we can turn it up all the way
(Cuz this is our someday)
Someday is what we make it
Someday is right here and now
What way what way what way
Cuz this is our someday
