Wouldn't it be cool if there was no doubt?
Wouldn't it be cool to find a way out?
Tear down the walls that hold you in
Between God and sin, wouldn't it be cool?

The sun goes down on Babylon
Those city lights could never last
Nowhere to go, you travel on
Runnin' from a nature that's runnin' twice as fast

Wouldn't it be cool if there was no doubt?
Wouldn't it be cool to find a way out?
Tear down the walls that hold you in
Between love and sin, wouldn't it be cool?

Your information, investigation
Brings you to your praying knees

The God you made, where is he now?
The Lord Jehovah stands alone
Tonight the prayer, you prayed aloud
The Holy Spirit took directly to the throne

Now isn't that cool, there is no doubt?
Now isn't that cool, you found a way out?
You tore down the walls that held you in
Between God and sin

Isn't that cool?
Isn't that cool?
Isn't that cool?
Isn't that cool, cool, cool, cool yeah?
