Until death takes it's mark

I will stand alone

For my Gods might

I slay the fallen souls

Over the lands of the dead

My wrath shall be felt

To be to be

What earth can be!

I am the son of darkness

I am the brood of hatred

I have the strength of damnation

I see the fire in the black abyss

I see the souls of the dead arise

For the wrath I have become

For the hate I shall be

It is all I am

I am all
