Sitting all alone with the lights out  
Except that of a candle burning.  
Sitting all alone with my thoughts and you  
Are all that I can see.

All i feel is the pain you left me.  
All i think is how much more misery.  
All i wish for is my own saviour  
Come and save me before I forget how to feel.

I feel nothing anymore.  
I feel no joy or pain.  
But the sadness still remains.

The howling wind and sound of the ocean  
Bring my pain to life.  
As i look to the ocean and my heart bleeds  
I wish i was not me.

I always though.  
I always believed.  
I always felt that you were the one  
And we were always meant to be.

I feel nothing anymore.  
I feel no joy or pain.  
But the sadness still remains.

Kill the pain i feel,  
Kill the misery I bleed,  
Turn the darkness into light,  
Turn what wrong into right,  
I have waited for this day,  
When i feel happiness again,  
Witness to failure again,  
For all of eternity the sadness will remain.

The silent tears I cry help release and heal  
The pain i feel now.  
The music playing burns into my soul  
And i slowly go cold.

I feel nothing anymore.  
I feel no joy or pain.  
But the sadness still remains.
