Birth, born into pain  
Blackened blood runs thick  
Ancient memories of one before  
Of the storms that passed with their rage  
Dark seasons of the rain  
Washing away of the earth  
I can see beyond infinity  
Blackness devours the sky  
I raise my sword to the dead and I command  
Destroy those who slaughtered us  
I hear all the cries  
As the wicked spread their mighty wings  
Guided by the darkness  
Deliver me unto forgotten lands  
I am king of my world  
Reclaiming my right to the throne

Shadows of the ancients  
Suffocate the earth with rain  
Clouded skies surround us  
Reopening the passage of time  
Set the world aflame they rule again  
The scent of burning mortals now begins  
Kingu's blood earth - barren waste  
Infinity dimensions woven worlds  
Cast in the cosmos dominion of the lords  
Opening the gateways to countless unknown spheres  
Blast of light traveling through blackness  
Humans will never conceive the passing of the storms
