I Summon Thee Forth.

I call upon thee, lord of darkness and terror  
Unleash your fury on this mortal race

Oh father, abandon us not in this hour of need  
Lead us far from this coming oblivion.

From this life to your demonic soul

With my divine power, fear not this coming darkness  
For I shall protect you till this life eludes me

My death shall not be in vain

From flesh to stone  
From here you shall not pass  
I stand before you now  
Destiny will follow through

And this is how I die  
In my deepest slumber  
Through fields of torment my soul will pass  
Let me walk free

Distorted images of life, slowly flashing  
The scars of my past never receding  
Curse me now into darkness  
I will withstand this punishment

The meeting of minds, the erupting of thought  
Foresee the darkness that ravages your kind

Believe the evil, succumb to it's possession  
The power of demons that's merged in your mind

As the sun seeps through the smoke  
And the world looks desolate and drained  
While the blood drips from the tip of the sword  
There lies the warrior unslain

Dead eyes

Dead eyes that see no future

Through my eyes witness my torment  
See the horror that only I've seen

Relive my fears, feel my anguish  
My testament will be my legacy
