My loyal companion how I wish, I could  
Run far away from your hand  
But married we are and together we'll stay  
'Til Charon me offer a ride

Famine's your name and starvation you are  
Your presence, my body has leaved  
Your weight on my shoulders, I've carried through  
times  
No mercy you've given to me

Starvation, hunger, my consort  
Starvation, [Incomprehensible]

Instinct of self-preservation, my doom  
No would, I will inflict my self  
The fear of the reaper is equal, your weight  
I'm destined to carry your curse

My colleagues of famine through ages of time  
All equal in your face, we are  
From Ukraine and China, to southern black men  
United in famine we stand

A slow walk upon the path towards the gate  
A gate that's leading to Styx, leading to Styx  
I must walk with the weight of your being upon my  
shoulders  
Until the end, until the end

Starvation, hunger, my consort  
Starvation, [Incomprehensible]

Die, die, die, die, die, die  
Die, die, die, die, die, die  
Die, die, die, die, die, die

My loyal companion how I wish, I could  
Run far away from your hand  
But married we are and together we'll stay  
'Til Charon me offer a ride

Famine's your name and starvation you are  
Your presence, my body has leaved  
Your weight on my shoulders, I've carried through  
times  
No mercy, you've given to me

Starvation, hunger my consort  
Starvation, [Incomprehensible]

Hunger my consort, hunger my consort  
Hunger my consort, hunger my consort  
Hunger my consort, hunger my consort
