"Hold Your Breath"

What's your reason to kill or not?
This has come a long way,
Too fake for the season, is it real or not?
Totally in this i would stay!

Too many sensations now for a good feeling,
I'll take a step back.

Let's go under and hold our breath.
Who's got the reasons now?
In one little mouth it goes,
Never will surface!

Too many sensations now for a good feeling,
I'll take a step back.
Too many sensations now for if to be so real!

Too many sensations now for a good feeling,
I'll take a step back.
Too many sensations now for if to be so real!
