

Denean "Fire Prayer"

Visit "[Fire Prayer](#)" on MotoLyrics.com

We circle around the fire
We feel the spirits near
We know their loving presence
As we offer them our prayers

See the gentle smoke rising
From the earth to the sky
Sharing each prayer we offer
With the ancient ones on high
With the ancient ones on high

Every thought, every hope
Every joy, every dream
Sent upon the sacred smoke
To the ancient ones unseen
To the ancient ones unseen

Hear the voice calling you
In your heart you know it's true
Feel the love abound
Of the ancient ones around you
Of the ancient ones around you

Feel the ancient ones all around you
Yes, the ancient ones are around you
With love, with love
