So hop in your ride
Roll the windows down
Cause tonight's your night,
Get lost in the sound
Gotta crank the music loud
Baby blow your speakers out (Your speakers out)

Under the stolen lights
Feel the rhythm the rhythm
And it'll get you right
Sweat it all out of your system
You gotta free your mind
Let yourself unwind
Cause it's your night night night
So get it right right right come on

Can you feel it (inside)
It likes to go for (a ride)
I know you need it
I can see it in your eyes

So hop in your ride
Roll the windows down
Cause tonight's your night,
Get lost in the sound
Gotta crank the music loud
Baby blow your speakers out (Your speakers out)

So hop in your ride
Roll the windows down
Cause tonight's your night,
Get lost in the sound
Gotta crank the music loud
Baby blow your speakers out (Your speakers out)

I know you feel the heat
I see you feeling the fire
Don't worry bout a thing
Fulfill your every desire
The DJ's playing your song
So now you can't go home
Cause it's your night night night

So do it right right right come on

Can you feel it (inside)
It likes to go for (a ride)
I know you need it
I can see it in your eyes

So hop in your ride
Roll the windows down
Cause tonight's your night,
Get lost in the sound
Gotta crank the music loud
Baby blow your speakers out (Your speakers out)

So hop in your ride
Roll the windows down
Cause tonight's your night,
Get lost in the sound
Gotta crank the music loud
Baby blow your speakers out (Your speakers out)

(Woah Oh)
Let me hear you say
This parties never over no, no, no
Let me hear you say
Woah

So hop in your ride
Roll the windows down
Cause tonight's your night,
Get lost in the sound
Gotta crank the music loud
Baby blow your speakers out (Your speakers out)

So hop in your ride
Roll the windows down
Cause tonight's your night,
Get lost in the sound
Gotta crank the music loud
Baby blow your speakers out (Your speakers out)
