My heart had a bunch of beats
none of them seemed to work for me
I can't find the point to sing
When everything seems to sound so out of key
I was looking for a melody
You walked right in and took the lead
I didn't know what to say
Cuz everything sounds so differently
Now my heart goes boom boom boom
It's like a million notes a minute
and I don't know how you did it.
Yeah, my heart goes boom boom boom
Let's put our song on replay
You and me together make a number one record
girl, you know the only song that I wanna do is
featuring you.
You can be the lyrics
It's like I already hear it.
Girl, you know the only song that I wanna do is
featuring you.
Uuh, uhh, uh, uhh
Uuh, uhh, uh, uhh
Now you're stuck inside on my head
Like the hit on the radio I can't forget
Now my life's got a new soundtrack
when I sing it for you, you sing right back
No solo, we duet
And I'm never gonna go back to the way it was
And I know that we just met
But it all sounds better with the two of us.
Now my heart goes boom boom boom
It's like a million notes a minute
and I don't know how you did it.
Yeah, my heart goes boom boom boom
Let's put our song on replay
You and me together make a number one record
girl, you know the only song that I wanna do is
featuring you.
You can be the lyrics
It's like I already hear it.
Girl, you know the only song that I wanna do is

Uuh, uhh, uh, uhh
Uuh, uhh, uh, uhh
It's featuring you
Uuh, uhh, uh, uhh.
Hey baby
you're my number one feature
I have to write a song about you
Every time I see you
I can be the melody you can be the lyrics
make 'em wanna throw their hands up
Every time they hear it.
Cuz you and me together make a number one record
girl, you know the only song that I wanna to is
featuring you.
You can be the lyrics
It's like I already hear it.
Girl, you know the only song that I wanna do is
featuring you.
Uuh, uhh, uh, uhhh
Uuh, uhh, uh, uhh
