Right now, feels like it's the encore
Like we just lived through one more
We just set foot in the door
I know, you've think you've seen the whole show
But this is just the intro
It's just the beginning, here we go

The night is young
And we're just getting started
We're just getting started
And the best is yet to come
And we're just getting started now
Woah, woah, woah woah woah
And we're just getting started now
Woah, woah, woah woah woah

Right now, feels like it's the last page
But we're just warming up the stage
I've found the key and unlocked the cage
I know, it's feeling like the sunrise
But it isn't even midnight
Oh girl we got a lot of time, lot of time,
I'll make you mine

The night is young
And we're just getting started
We're just getting started
And the best is yet to come
And we're just getting started now
Woah, woah, woah woah woah
And we're just getting started now
Woah, woah, woah woah woah

I, I, I know that I just met you
Feels like it's been forever
But it's only getting better, and better, and better, and
yeah

The night is young
And we're just getting started
We're just getting started

And the best is yet to come
And we're just getting started now
Woah, woah, woah woah woah
And we're just getting started now
Woah, woah, woah woah woah
And we're just getting started now
Woah, woah, woah woah woah
And we're just getting started now
Woah, woah, woah woah woah
