Love me, love me, say you're gonna love me
I know you're ready to go (I, I'm ready to go)

Jaw drop, heart stops, we eye lock
I must be dreamin', don't hit the alarm clock

Under the lights, comin' alive, she's "thriller" tonight

One dance - two dance - is not enough
You got that glow in the dark, so I'm not givin' up

I'm reading your mind
You know I'm a psychic
Why you tryin' to hide it, hide it?

[Chorus]

Love me, love me, say you're gonna love me
I know you're ready to go (go)
Love me, love me, say you're gonna love me
Don't leave me out on the floor (floor)
I'm saying whoa, don't tell me no
Love me, love me, say you're gonna love me
I-I-I'm ready to go, I'm ready to go

Love me, love me, I-love me, I-love me
Love me, love me, I-love me, I'm ready to go

Can't stop, won't stop, we party rock
You got them red velvet lips, sweet like Betty Crocker
So call the doctor
'Cause someone needs to take your temperature,
you're getting hotter

Under the lights, comin' alive, she thriller tonight
I'm reading your mind
You know I'm a psychic
Why u tryin' to hide it, hite it?

When I rock, you roll
You're loosing control
And if you got that feeling
Throw your hands up in the air

Love me, love me, say you're gonna love me
I know you're ready to go (go)
Love me, love me, say you're gonna love me

Don't leave me out on the floor (floor)
I'm saying whoa, don't tell me no
Love me, love me, say you're gonna love me
I-I-I'm ready to go, I'm ready to go

You be Juliet, I'll be Romeo
Whatcha' waiting for, you know you wanna go, go, go
(I'm ready to go)
Don't say goodbye, 'cause we just say hello (hello)
Say you're gonna love me girl, 'cause I need to know

Ready go go go go go go go go go go go go go go go go go
Ready go go go go go go go go go go go go go go go go go
Let's do this

Love me, love me, say you're gonna love me
I know you're ready to go (go)
Love me, love me, say you're gonna love me
Don't leave me out on the floor (floor)
I'm saying whoa, don't tell me 'no'
Love me, love me, say you're gonna love me
I-I-I'm ready to go, I'm ready to go

Love me, love me, I-love me, I-love me
Love me, love me, I-love me, I'm ready to go

Love me, love me, I-love me, I-love me
Love me, love me, I-love me, I'm ready to go
