Before I could ever let you go,  
Could beg until I drive you mad  
Tell you something you could understand  
(I'm a statue baby, knock me out)  
Oh how these moments fade away (You say you never  
loved me)  
We say things we didn't mean to say  
(I take it back, I take it all back now  
I take it back, I take it all back)

Paralyzed  
All because of you (all because of you girl)  
I'm stuck and traumatized  
There's nothing more I can do girl  
Everyday I feel the same (knock me out!)  
That's the downside to this game  
Paralyzed  
I never want to be without you

You mean more to me than you'll ever know  
You're my girl and I think it's a shame  
That we get along this way  
(I'm just a statue try to knock me out)  
I guess these moments fade away (You sayin' you  
never loved me)  
We say things we didn't mean to say  
(I take it back, I take it all back now  
I take it back, I take it all back)

Paralyzed  
All because of you (all because of you girl)

Yea, I know you feel the same  
Ya gotta let me know, I'm dying inside to know  
Knock me out, I'm dying inside to know  
Let me know, knock me out  
Knock me out!  
Knock me out!
