

## Big Time Rush

### "Run Wild"

Visit "[Run Wild](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Run wild and never look back

Break down, get a little loud, shout it from the rooftops  
now

Pick up, even if you're down, yea we're gonna run this  
town

Don't wait, time is running out

Can you hear it ticking? Let the music kick in

Break down, get a little loud, shout it from the rooftops  
now

People say play it safe, but I don't wanna live that way

Take a chance, change the game, and show them that  
we're not afraid

Run wild and never look back, never look back the night  
is waiting

Stand up and don't shut up, the world is for the taking,  
taking

Run wild and never look back, never look back no  
hesitating

Stand up and don't shut up, tonight is what we make it,  
make it

Earthquake, gotta shake it up, gonna make the whole  
world jump

Stop signs, think I've seen enough, I'ma leave'em in the  
dust

Right now, breakin down the doors

Can you hear me knocking, get this party rocking

Earthquake, gotta shake it up, gonna make the whole  
world jump

People say play it safe, but I don't wanna live that way

Take a chance, change the game, and show them that  
we're not afraid

Run wild and never look back, never look back the night  
is waiting

Stand up and don't shut up, the world is for the taking,  
taking

Run wild and never look back, never look back no  
hesitating

Stand up and don't shut up, tonight is what we make it,  
make it

Fighting the fire deep inside ya, make your move  
tonight, tonight

Run wild and never look back, never look back the night  
is waiting  
Stand up and don't shut up, the world is for the taking

Run wild and never look back, never look back the night  
is waiting  
Stand up and don't shut up, the world is for the taking  
Run wild and never look back, never look back no  
hesitating  
Stand up and don't shut up, tonight is what we make it,  
make it

Run wild x4  
Never look back
