I can see you in the window, waiting for my call
With the moonlight shining on you, you look so beautiful
We've been searching for that something that we could call our own
But they tell us that we're too young and we need to let it go
I can barely breathe, come run away with me

Don't you worry bout a thing, don't hurry cuz a love like this is forever
They don't even know a thing, we'll show'em all that we're much better together
The love we got is so untouchable

Got the whole world up against us, they wanna see us fall
But our love is like a castle, they can't break down the walls
Like a force field all around us, two hearts with keep us strong
Yea you got me and I got you, we're so untouchable

Don't you worry bout a thing, don't hurry cuz a love like this is forever
They don't even know a thing, we'll show'em all that we're much better together
The love we got is so untouchable

Imagine us in paradise, somewhere only we know
And in that place, we'll live our lives, we're so untouchable
Come run away with me

Don't you worry bout a thing, don't hurry cuz a love like this is forever
They don't even know a thing, we'll show'em all that we're much better together
The love we got is so...

Don't you worry bout a thing, don't hurry cuz a love like this is forever
They don't even know a thing, we'll show'em all that we're much better together
The love we got is so untouchable
