### "My Melody"

Visit "[My Melody](#)" on MotoLyrics.com

Some people feel it all around them  
Others feel it inside  
Some people spend a lifetime searching  
For a rhythm denied  
Life's music can make you happy  
Life's music can make you want to cry

Don't ask me why

It's not another song  
It belongs to me  
It's not another song  
It's my melody

You can let trouble strum on your heartstrings  
Or let them blow in the wind  
I'll write another happy love song  
When I feel it again  
Life's music can take you real low  
Life's music can take you up real high

Don't ask me why

It's not another song  
It belongs to me  
It's not another song  
It's my melody
