You're always there to light my cigarette  
You send me flowers that say you won't forget  
When we're walking hand and hand  
You seem so proud  
And the tender words you say to me out loud  
They leave no doubt

It's almost time to slip into a dress  
I comb my hair  
I want to look my best  
And I'll have your favorite meal  
When you get home  
Cause your lovin' makes me feel so safe and warm  
It's in your arms

You're all that matters to me my love  
You're all I've wanted  
You're all I've needed  
You're all that matters to me my love  
You're all I've wanted  
You're all I've needed

Together...  
Forever...  
Me and you my love

I must confess  
At first I felt unsure  
I'd kept old heartaches  
But your love was the cure  
All the happiness we share is like a dream  
And my dreams are coming true  
Because of you...  
Only you...

You're all that matters to me my love  
You're all I've wanted  
You're all I've needed  
You're all that matters to me my love  
You're all I've wanted  
You're all I've needed
