I guess you don't know
what you got 'til it's gone
Never played the game of love
I went about it all wrong
Never let you in
I never let you know
That in my heart I never want to let you go
But now I can see the mistakes I've made
And you don't know the price I've paid
And all I need is a second chance
Let me try - try and save this romance
Chorus:
I only wanted to love you
I never wanted to let you go
I think its time that you should know
I only wanted to love you
I only wanted to give you all of me
I never meant to hurt you....baby can't you see
I only wanted to love you...I need you here by me
I only wanted to love you
I gotta find a way for you to hear this song
Been two whole years since you've been gone
If it takes my whole life I'll keep searching for you
Gonna give you love, a love baby that's all true
Can't you see when I look in your eyes
Tell you I'm sorry and I apologize
Forgive & Forget
It won't be the same this time
I'm forever yours and your forever mine
Chorus 2x
