In the night I close my eyes
And all I see is you
You stole my heart then you were gone
Boy what did I do
You told me that you'd always love me
You told me that you'd always care
But tonight is when I need you most
And baby your not there
Can you feel my heart break suddenly
It breaks for you and me
And don't you know the same I'll never be

Chorus:
You promised love
You gave me pain in my life
I'll never be the same
In the dark of night
I call your name but your not here
And I'll never be the same

In my mind I see your face
I only dream of you
I wake up alone without your love
I don't know what to do
You told me that you'd never leave me
You swore that you'd never lie
But the only truth you ever told
Was the day you said goodbye
Can you feel my heart break suddenly
It breaks for you and me
And don't you know the same I'll never be

Chorus (3x)
