I have no head for figures  
My hands cannot explain  
Endangered animals and acid rain  
I see dead rivers running dry  
I see the activists who march and cry  
How they cry singin'  
Why must we desecrate this land  
I'll tell you why  
Because we can that's why  
Save the whales, save the seals  
Save the eagle, save the bison and the beach  
Why not save your breath  
Save the porpoise, and the dolphin  
Save the gerbil, save the racoon and the rat  
Why not save some stamps  
I am a human, I'm a goddamn human being  
I walk erect  
See the cheetah, oh so supple, lean and quick  
As he chases a gazelle  
But he can't drive a car

At least not very far  
I am a human, I'm a goddamn human being  
I can pay for sex  
"Hey, there's a great show on teh Discovery Channel  
tonight,  
the history of the badger."  
"Hmm, I wonder what badger tastes like?"  
"I don't know, probably tastes like ferret."  
"Wow, you had ferret?"  
"Yeah."  
"What's it taste like?"  
"Chicken."  
I am a human, I'm a goddamn human being  
I can wipe my ass  
"What gives you the right to kill at will?"  
"I'll tell you what, guns.  
Big fuckin' guns with giant fuckin' bullets pal."  
I am a human, I'm a goddamn human being  
I can shave my balls
